Accounts Payable
with Invoices

Reinventing the wedding planning and registry experience with technology.

900 Global Vendors

600,000+ Invoices Annually

400% Decrease in Proposed Headcount

With the implementation of Tipalti, Zola was able to streamline its entire accounts payable operation.

What They Gained

- Scaled payments and invoice processing by integrating Tipalti with Sage Intacct ERP
- Accelerated monthly close without hiring additional AP staff
- Future-proofed financial operations on a global scale
- Upgraded from Bill.com for a more robust, efficient payments experience

"Our staff doesn't have to spend all day living in Tipalti. We can better allocate our time supporting the business as opposed to entering and coding invoices."

Shayon Donaldson
Accounts Payable
Manager,
Zola
